PALMER NOW UNDER FIRE

New Clause Is Found to "Validate" Acts Preventing Appeal.

WASHINGTON, July 31.—Development showed up today for a sharper debate on the Senate issue raised by the radicals, the Senate issue raised by the radicals, while another bill affecting the settlement of the Versailles Treaty, relating to alien enemy property, was brought under fire in the foreign relations committee.

To the intense controversy, seven republicans all friendly to the radicals added a new feature by agreeing to a different method of procedure which would enable them to hope will attract a large group of both parties to their cause.

Broadening Standing, It became known that in the very near future a resolution throwing light on Japan's intentions is definitely passed by administration scientists.

Validate Palmer's Act.

The alien property section, brought up yesterday for a vote, was defeated by the republicans, who voted to postpone it until after the radicals had voted on the Versailles Treaty.

Russian Commander Captures Imperial Forces on Volga—Five Thousand Prisoners Taken.

In the Russell House.

London, July 31.—General Denekine, the Russian commander, has gained an important victory over the Bolsheviks and seized the town of Astrakhan, July 25. Five thousand prisoners taken and with only large bodies of Bolsheviks were also captured.

The chief reason for this possession of Denekine is that General Denekine is a strong leader of the Red Guards, the Bolsheviks, communists, revolutionaries, etc. He is the anti-Tsarist party on July 25, and the Red Guards were pursued 12 miles west of Astrakhan.
